

Ulverston Conservation Area

This map shows the up-to-date Conservation Area boundary. Please note that this may differ from the boundary depicted in the Townscape Features and Architectural Quality maps attached to the Conservation Area Appraisal document, as changes to Conservation Area boundaries may have been made since that document was prepared. If you have a query relating to land or property that was outside the original boundary but which is now shown to fall within the Conservation Area, please contact our Conservation Officer, Graham Darlington.
